REPUBLICAN OPENING

BY VICE PRESIDENT FAIRBANKS

Says Republicans Will Readjust Tariff When Demand Exists-Will Also Enact Just Railroad Legislation.

Bellefontaine, Ohio, Sept. 24.-Beautiful weather and immense crowds were features of the opening of the Republican state campaign here yes-terday. Republican clubs from all parts of the state arrived early in the day to participate in the parade which was held during the morning.

Judge Dow was chairman of the meeting. Music was furnished by the Republican Glee Club of Columbus, and the address of Vice President Fairbanks followed. He said:

"'Let well enough alone' is a well-worn phrase, yet is possesses great virtue. When business conditions are unexcelled, when both labor and capital are generally and profitably ployed, it is not the part of wisdom to revolutionize political parties.

"A Republican Congress will read-just tariff schedules whenever such readjustment is essential to preserve the integrity of the system and to maintain the law in wholesome operation Change will not be made for the mere sake of change, or to promote free trade, whose disastrous effects we thirty-eight monthly and weekly well understand. An adjustment of lications unless postage is prepaid. duties will be made responsive to a sound economic demand. Whenever such demand exists, Congress will in a wise and patriotic way give effect to it. It will not proceed in a manner to disturb and unsettle, but to maintain the stability of commercial condi-tions. The subject will be considered, not in a narrow and technical spirit, but in a broad way, having in view the

largest common good. "The subject of railway discriminations is of wide interest. The ques-tion is obviously one to be dealt with with full knowledge, and not by an appeal to prejudice or by loud acclama-

"It must be settled,, not in the light of mere personal or party politics, but according to principles of strict justice; in the light of right as between man and man. It will be settled, in the language of your platform, so as to promote and insure the rights of individuals, interests and localities. Legislation which had been hitherto enacted to cure the generally admitted evils has not accomplished all that was intended or all that was deemed neces-

The President has brought the matter to the attention of Congress and Congress may be relied upon to proceed, in the light of past experience and present information, to enact such laws as will effectually remove the evils which confessedly exist.

There must be an end of discrim-

"Republican triumph in Ohio will mean the endorsement of the administration of President Roosevelt. It will show that the people are satisfied not only with the soundness of the policies of the great Republican party, but that they approve the able and successful manner in which the affairs of the nation are administered by him."

C. F. & I. Wins Water Suit.

Pueblo, Colo., Sept. '24,-Judge N. Walter Dixon yesterday announced his decision in the water suit of the Colorado Fuel and Iron Company, which has been pending in the District Court for several weeks, granting the company the right to change the point of diversion of its water supply on the Arkansas river from the present headgate, situated two miles west of Boone, Colorado, to Adobe, Colorado, a siding on the Denver & Rlo Grande railroad, about six miles east of Flor-ence and about six miles west of the Pueblo county line. The distance of the transfer is about fifty miles west of the present headgate.

As soon as the court announced its decision the attorneys for the protestants gave notice of an appeal to the Supreme Court.

Universities and Business. "Shall the university become a busi-ness corporation?" is a pressing quesion which is very ably discussed President Henry S. Pritchett of the Massachusetts Institute of Technology in the September Atlantic. Standing, as he does, at the head of one of the greatest technical schools of the United States, which is widely known as a model of executive perfection, President Pritchett's wise and moderate plea for better balanced co-opera tion between the intellectual and the ousiness powers of the university will attract wide attention. His conclusion is momentous.

'For after all, we can never too often remind ourselves that the first purpose of the university is not to further ndustrial development, or to increase the wealth of a state, but that it is the development of the intellectual and spiritual life. This development can take place only in the air of freedom. however evident are the dangers which freedom brings with it. Wealth, power, the niceties of life, may all grow in an atmosphere of limited or of artificial freedom, but only in the air of real freedom can be grown that spirit and that intelligence which shall minister to those things which are spiritual and to those things which are eternal."

Six Doctors Failed.

South Bend, Ind., Sept. 25th (Special)-After suffering from Kidney Disease for three years; after taking treatment from six different doctors without getting relief, Mr. J. O. Laudeman of this place found not only relief but a speedy and complete cure in Dodd's Kidney Pills. Speaking of bis cure Mr. Laudeman says:

"Yes, I suffered from Kidney Trouble for three years and tried six doctors to no good. Then I took just two boxes of Dodd's Kidney Pills and they not only cured my kidneys, but gave Oyster Bay after having made efforts me better health in general. Of course I recommended Dodd's Kidney Pills to others and I know a number now who are using them with good results."

Mr. Laudeman's case is not an exception. Thousands give similar experiences. For there never yet was a case of Kidney Trouble from Backacne to Bright's Disease that Dodd's Kidney Pills could not cure. They are the only remedy that ever cured Bright's Disease.

CHRONIC ERYSIPELAS

Although Whole Body was Affected.

Erysipelas or St. Anthony's fire is a most uncomfortable disease on account of the burning, the pain and the dis-figurement; it is also a very grave disorder, attended always by the danger of involving vital organs in its spread.

The case which follows will be read

with great interest by all sufferers as it affected the whole body, and refused to yield to the remedies prescribed by the physician employed. Mrs. Ida A. Col-bath, who was the victim of the attack, residing at No. 10 Winter street, New-buryport, Mass., says: "In June of 1903 I was taken ill with

what at first appeared to be a fever. I sent for a physician who pronounced my disease chrosic crysipelas and said it would be a long time before I got well.

"Inflammation began on my face and spread all over my body. My eyes were swollen and seemed bulging out of their sockets. I was in a terrible plight and anflared the most intense rain through.

sockets. I was in a terrible pight and anflered the most intense pain throughout my body. The doctor said my case was a very severe one. Under his treatment, however, the inflammation did not diminish and the pains which shot through my body increased in severity. After being two months un der his care, without any improvement, I

dismissed him.

"Shorily after this, on the advice of a friend, I began to take Dr. Williams' Pink Pills for Pale People, two at a dose three times a day. After the second box had been used I was surprised to notice that the inflammation was going down and that the pains which used to cause me so much agony had disappeared. Af-ter using six boxes of the pills I was up and around the house attending to my household duties, as well as ever."

THOUSANDS OF LIVES SAVED By "Mother's Medicine Chest" and Patent Prescriptions.

Commenting on attacks made by certain eastern publications on some of the best known and most valuable of the world's proprietary medicines, the Committee on Legislation of the Proprietary Association says:

"All through the country districts, in every state of the union, you will find in the farm houses the old family remedies, sometimes called 'patent medicines,' many of which have been in use in the same household for generations. Among such people the oldfashloned proprietary medicine, always at hand with full printed instructions for use, is one of the necessities of life. "To families in the country many

miles from a doctor such remedles are invaluable. 'Mother's medicine chest has saved many a life and met many a threatening sickness at the threshold and turned it out of doors. So far from constituting self-prescription, as is often pretended, acquaintance with a 'patent medicine' often obviates the necessity of such a step; for here is a prescription already made up, the effect of which is well known. One of the greatest advantages of such medicine is that its constant formula gives it the character of a single drug, so far as uniformity of result is concerned, and the people who use it know from experience just what they can count on-which is more than can be said of many physicians' prescriptions frequently obtained at a far greater cost and trouble."
